No. 10

Sarah B. Romeril Dead

Mrs. Sarah B. Romeril, aged 81 years, passed away in her sleep Tuesday night at her home between here and Lethbridge. George visited her Tuesday evening, and she had eaten a good supper, and was feeling fine, and when her daughter Mrs. R. C. Shurtz went to take the milk to her Wednesday morning she could get no answer, and when her husband opened the door by crawling through a window, they found the aged lady dead, without any signs of moving at all, apparently just having slept herself away.

With her husband and children they came to Canada in 1899 and settled on a farm between here and Stirling, and were home builders of a very fine type, always energetic, and doing their full part in every way. Mr. Romeril, Sr. passed away 3 years ago. Mrs. Romeril was a great lover of home and family and had the respect of everyone who knew her. She was also active in community affairs and was well known to a great many people. She was the mother of nine children, one girl Clara having been dead a number of years. The eight living children are four boys; Fred W. and Geo. H. of Raymond, and Chas. Z. and Alfred E. of Stirling; and four daughters Mrs. Sarah Adamson, Mrs. Ada Bascom, Mrs. Vilate Henderson, and Mrs. Maude Shurtz.

The funeral will be held in Stirling on Sunday at 2 p.m. The family believe they lived on the farm and burial will take place in the Raymond cemetery beside the body of her deceased husband.

Women's Institute Meeting Held

The regular meeting of the W. I. was held Thurs. night in the United Church with 30 ladies present. A very interesting program was carried out which was enjoyed by all.

Mrs. Albert Winkler, Convenor in Agriculture gave a very interesting paper on "Gardening" and suggested it was time for Raymond to wake up and beautify homes, etc. This would not take much money, and is something that pays big dividends. Mrs. Frank Leavitt gave a talk "The Graveyard of the Atlantic" from the Canadian Geographic Magazine, which was full of interest. Mesdames T. Geo. Wood and D. A. Watson rendered a Vocal Duett, accompanied by Mrs. R. W. Follestrup at the Piano. Misses Muriel Webster and Winnie Evesson also contributed a Duett being accompanied by Miss Lulah Paris.

The Day of The Swarm

The Bee-Hive graduating exercise called the Day of the Swarm, will be held this year at Stirling on May 21st. A delightful time is anticipated. Mothers and M.I.A. officers invited to attend.

PRESIDENT OF FRANCE IS ASSASSINATED

Paul Doumer, 75 year old statesman and President of the French Republic was shot by an assassin Friday afternoon last, and passed away early Saturday morning, plunging the nation into deep mourning, as he was a man of rare ability, and was eminently successful in guiding the ship of state during these troublous times. The funeral was held on Thursday of this week. The assassin was a Russ an assassin named and charged with murder later, he stated that he killed the President so France would have to declare war on Russia and break the power of Bolshevism. The assassination occurred on the eve of the French election, and France went to the polls in silence, the entire nation mourning the death of the beloved President.

Welcome Home Party

A Social will be held in the Second Ward Hall tonight (Friday) in honor of Elders W. R. Jones and Howard Rasmussen who have recently returned from the mission field. A program has been arranged, refreshments will be served, and a Dance will conclude the evening's entertainment. Everyone is invited and the program will commence at 8:30.

Band Concert Sunday Night

A Concert will be given in the Capitol Theatre Sunday night by the Raymond band consisting of band numbers, vocal and instrumental solos, and readings, etc. This is being done to help pay off the indebtedness of the band, and it is hoped that the public will generously patronize this concert. No admission will be charged, but a Silver collection will be taken at the door. The programme will begin at 8:30 p.m.

"The Miracle Man"

Regarding the "Miracle Man" which shows at the Capitol Monday, Tuesday and Wednesday of next week, we need say no more than was printed in the last Era, and which we are reproducing from its pages in the event that some may not see it. The quotation in full is as follows: "The Miracle Man" Paramounts For Family. A well known silent picture comes to the screen with a strong cast, giving a dramatically fine performance. The story concerns an old healer, the trust that people have in him and a group of crooks who, attempting to exploit the miracle man, finally come to believe in him and his way of life. A spiritual element in pictures is all too rare, and will be welcomed in this notable production. (Sylvia Sidney, Chester Morris, Irving Pichel, John Wray, Robert Coogan in the cast.)

The Basketball Games

The Basketball Games are over, the bills are paid, and the state is wiped clean. Elsewhere in this issue is printed the Financial Report of the Games for the perusal of those interested.

Much could be said and many questions raised regarding one thing and another whether to any advantage or not is questionable. Of one thing we can be certain, the games cost plenty to stage, and when we as a town stood one-third of the expense, it seems only fair that we should have shared in a third of the melons that were passed out. Well, we didn't so why cry over spilt milk.

News Notes

Frank Taylor is driving a new Pontiac Sedan purchased on Saturday of last week. It is surely a nice riding car.

Mrs. R. Hardy of Salt Lake City, was a guest at the Wm. Redd home during Conference on Saturday and Sunday.

Mr. and Mrs. Don Wall were in Cardston Wednesday attending the Temple session. During the noon hour they drove out to Mountain View to see some friends.

Albert LeBrun, 60 years old, was on Tuesday elected 14th President of France, succeeding Paul Doumer who died following his assassination on Friday last.

Rioting has broken out again in New Zealand, the jobbers becoming stirred up and breaking plate glass windows in their demonstrations against the Government.

Good Attendance At Quarterly Conference

Good crowds were present at all meetings of the Quarterly Conference of the Taylor Stake of Zion held here last Saturday evening and all day Sunday. Mrs. R. Hardy, representing the Primary General Boards, and Elder Geo. D. Pyper, of the General Superintendency of Church Sunday Schools were present and spoke in all meetings. Elder Pyper presided at all sessions and Pres. H. S. Allen took charge.

At the Saturday evening meeting Pres. J. W. Evans gave a splendid talk on Tithing and what its payment would do for us, and expressed his thankfulness for the wisdom and integrity of the men who had stood at the head of this work since its organization. Mrs. Hardy urged all to do their utmost in building up this work, and expressed the joy she found in working and helping plan the work for the tiny tots of the Primary organization.

Elder Pyper sang a paraphrase of the Lord's Prayer before his sermon on his personal knowledge and testimony of Presidents of the Church. He has known them all with the exception of Pres. Joseph Smith, the first president, and his personal contact and reminiscences of them was very interesting and instructive to his listeners.

T. K. Roberts sang "Jesus O Father."

SUNDAY MORNING

The session Sunday morning was the Sunday School session of the Conference and after the opening exercises the Sunday School Choir of the Second Ward sang two numbers "Our Angels" and "Our King."

Roland Weed gave a 2 1/2 minute talk on the parable of the Sower.

T. Geo. Wood, Stake Superintendent of Sunday Schools gave a talk on aims and ideals for Sunday Schools in the Taylor Stake, and urged officers and teachers to exert their efforts to reach these high standards. Margaret Allen and Margaret McEride played a Piano Duett.

Irene S. Redd, take Primary Pres, spoke briefly of the Primary work and thanked all for their co-operation in presenting the Primary pageant, stating that 60 p.c. of the population of the Stake had seen this presentation.

One of the Harker boys from the Magrath Second Ward played a Harmonica Solo.

Mrs. Hardy voiced her appreciation of the splendid attendance especially of the boys and girls, and told a very interesting story for their benefit.

The Stirling Primary boys sang a song accompanied by the Rhythm Band.

Elder Pyper spoke to the children of the beginning of Sunday School work, and said that now there were 309,000 children enrolled in Sunday School work. He related some of his experiences in Hawaii, and gave a splendid talk on Mother's Day for the benefit of all.

Children of the Magrath Second Ward sang "Be Kind to All." Pres. O. H. Snow told of attending Sunday School as a boy and the great advances made in teaching, presentation of lessons and places of meeting between then and now. He considered that we were a very blessed people and that we should remember this. Encouraged the children to always show respect for father and mother, and for the father and mother of everyone else.

By special request Elder Pyper sang "Kind Words are Sweet Tones of the Heart."

SUNDAY AFTERNOON The first business of the afternoon meeting was the presentation of the officers of the Church and Stake. The Fifth Elders Quorum in Magrath is being re-organized, and Mrs. L. D. King was released as Stake President of the Y.L.M.I.A. with a vote of thanks for her past faithful labors, and Miss Velma Meldrum was sustained as President, her councillors to be chosen later.

Miss Anne Snow reported her labors in the Texas Mission, referring especially to Primary work, and bore a strong testimony to the divinity of this work, and Elder Wm. Jones reported his labors in Eastern Canada hearing a humble testimony to the divinity of the work, and to the fact that the Lord always looks after and assists his servants in the performance of their labors.

Wm. Clark sang "My Soul Delighteth."

Pres. H. S. Allen delivered a splendid sermon on the doctrine of Diet, and advised all present, especially the young to become acquainted with the fundamental truths, and make these part of them before drifting out into the sea of disbelief and uncertainty. Said that many men were being forced to give up the ideas they had held for years and admit that they were unsound. The question of "Why we are here and where we are going" is troubling many people but as Latter-Day Saints we know, and our responsibility is to live worthy of this great knowledge. The Gospel he said is the Supreme Message of the Ages.

Wm. Clark sang again, this time "The Gentle Shepherd."

Elder Pyper spoke again and in the course of his remarks stated that a knowledge of God would not save us. Our work was to keep the commandments of the Lord and hearken to the shepherds of the Church. Enumerating the qualifications of the shepherds and teachers of the Church, these were mentioned: Sincerity, Knowledge, Dependability, Faithfulness, Cheerfulness, Courtesy, Sympathy, Understanding of Conditions, Self-Mastery and Love. Everyone who is teaching and guiding classes in the Church had much to think of from Elder Pyper's talk.

Mrs. Hardy spoke of Wonders of the Present Century, and stated that this was the century of the child. She also spoke of the beginnings of Primary work and its organization by Mrs. Eliza R. Snow and Mrs. Aurelia Rogers.

SUNDAY EVENING

The M. I. A. had charge of the Sunday evening meeting and Louis Brandley conducted these exercises. The massed choruses of the Stake were seated in the Choir seats and rendered some of the Contest numbers again.

Elder Pyper was the main speaker here, and spoke on the pioneer dramas of the old days, their exchange of produce for admission, etc., also his own association with the old Salt Lake Theatre and some of the notables who had played in that historic old place.

Mrs. Hardy also spoke at this meeting.

The Stake Choir was present both sessions Sunday and rendered some very nice selections during the meetings.

Trainload of Cattle Shipped Saturday

The stockyards presented a busy scene on Saturday last when 17 cars of choice cattle were despatched from the local feed lots. I. B. Roberts shipped two cars and W. A. Heninger one car of baby beef, claimed to be the finest three cars of Red Label Beef to leave Raymond. These three cars are billed for Glasgow.

C. L. Stringam shipped two cars of splendid beef to buyers in Calgary, and Meeks Bros. shipped 260 head, part going to Winnipeg and part to Vancouver, and one car came from

Wellington. Some of the older steers weighed as much as 1,800 lbs. and certainly were in splendid shape. Eight cars of sugar went out on Saturday's special freight too, one car of settler's effects and a few empties, making a train of about 82 cars. The same thing occurred Saturday of last week, there being over 60 cars billed out of the local yards in a period of eight days. This speaks pretty well for Raymond and her industries which are becoming more stabilized all the time.

Town Council Meeting

The Town Council met in usual session Thursday night and met with several delegations present regarding Municipal matters.

A representative was present from the Board of Trade asking that the Found Law be enforced, that the Cemetery be tightly fenced and all stock kept out. The Council stated that they were trying now to keep stray stock off the streets, and that this would be continued. In regard to the cemetery the fence will be repaired and gates kept locked.

The question of payment on Band Instruments was discussed and the Council decided to advance money enough, in conjunction with the Vote to pay immediate liabilities and keep the instruments.

A Tax Sale was decided upon for July 12, when a number of parcels of Town Property will be offered for sale.

The passing of the Pay Roll and routine business occupied the remainder of the time.

News Notes

The inside of the Cash Meat Market was repainted and freshened up over the week-end.

Allan Erickson and family of Wrentham, were here for Conference on Sunday and were guests at the Bonnett home.

Elder Geo. D. Pyper was a guest of Mr. and Mrs. T. Geo. Wood and family while here attending Conference.

113 Doukhobors were sentenced to three years each in Nelson last week for taking part in nude parades. 34 of them were women members of the sect.

Voters of Manitoba will go to the polls on June 16th for the general provincial election. The announcement was made Tuesday, three days after the legislature was prorogued. It will be a short campaign anyway.

Delbert Smith and Bill Wheeler of Magrath, are busy trucking the hotel material from Stirling to Magrath, where it is being rebuilt into a business block. It was purchased by H. C. Hilmer, whose block in Magrath was burned down last winter.

When a tornado in Bengal tore the roof off the jail, 22 prisoners and guards were killed and a great many injured when the inmates made a dash for liberty. 200 managed to escape and the police were busy looking for them. Nearby villages were also badly damaged.

BUILD YOUR OWN TOWN

Mr. Citizen! How well are you discharging your duties as a citizen of this town. Being a good citizen may mean more than living here and paying your taxes. Of course, these things are good, and very important. But, the ideal citizen is the one who spends his money in his home town. It means so much to the town in every way to have dollars spent in it.

In the first place every dollar you spend with home town merchants will give them more money to work on. They will be better able to pay their taxes, employ more help, carry a larger stock and a better one, have better premises and more attractive surroundings. This will mean that those who work for them will be able to pay taxes, build better homes, enjoy more of the comforts of life, and in every way the town will be bigger and better. Our schools will be able to carry on, and because of the live aspect of the town, settlers will seek us out as a town with a real Community spirit.

On the other hand if we make a practice of spending our dollars elsewhere, we are certainly helping the town where it is spent, to pay taxes, to build better homes, and to have fewer on the unemployed list, because there is no denying the fact that every dollar spent in a town helps that town, even if he only to the extent of 10c. of that dollar. Even enough dimes would make a millionaire.

Of course there are many arguments on this point. Eventually the greater part of the money goes out of town anyway, and that is right, but before it leaves town it is bound to circulate some, and in this circulation it is going to benefit the town. In the present depression we have a very concrete example of what circulation means. We have had materials for sale in greater abundance than ever, but they have not been sold because there was no money in circulation, no buying power. And that is just the same here. Every dollar we spend is buying power released, and if it is released in other places besides Raymond, then we are strengthening some other town's power and lessening our own.

Let us make our dollars build us properly by buying at home. If our merchants haven't just what we want, give them a chance to get it, and cooperate in the upbuilding of a better town. The result is, our are interested in the growth and stability of our town, the continuous operation of our schools, and better roads, homes etc. and if we all cooperate we will get them. Let's have them.

NEW RAIL TIRE PROVES BIG SUCCESS

Firestone, pioneer of the balloon tire which played such an important part in automobile development during the past 9 years has made another major contribution to transportation in the form of a new pneumatic rail tire which established a record on its first trial. This amazing new tire was developed after months of research by the Firestone Development Laboratories in an effort to perfect tired wheels for safe, comfortable, noiseless travel over rails, which traffic experts believe will have important bearing on rail transportation.

Equipment with wheels flanged like those of a railroad car and with the new rail tire, a heavy seven passenger sedan travelling on rails set a new rail record from Miami to Jacksonville, travelling 406 miles in 278 minutes at a rate of 84.39 miles per hour with all stops included. Deducting 31 minutes for stops, the actual running time average was 70.2 miles per hour.

C. I. D. Smith, manager of the Firestone Development Laboratories, piloted the car on its record-breaking run and was warmly congratulated by Mr. Firestone for the wonderful achievement.

At the end of the 405.7 mile run a close check of the tires showed no perceptible wear, and less heating than would have been evident in driving the same car over the highway. The tires behaved perfectly throughout the trip running without heating at a maximum speed of 87.3 miles an hour.

Progress through the remote wilds of the Everglades was made so quick

ly and at such speed that the car would be in the middle of a flock of buzzards, heron ducks or cranes before the birds were aware of it. Early spectators unaware that the record run was to be made gaped open-mouthed at the spectacle of a seven passenger automobile tearing along the rails at better than seventy miles an hour.

Despite the high speed the occupants made their notes and entered figures in the log books with perfect ease while gliding along at 75 and 80 miles an hour—with ease impossible in an automobile making 30 miles an hour on the highway or a train travelling at 60. It was almost as fast as airplane travel but infinitely more quiet and comfortable. Passengers were able to talk in ordinary conversational tones.

Elated with the accomplishment of the Firestone pneumatic tired rail car, Harvey S. Firestone declared it was a definite step in the progress of advanced and comfortable transportation. "Hundreds of miles of railroad tracks unused today will be put in use again through the development of this tire," Mr. Firestone said. "Smaller units of transportation which will permit railroads to operate many lines now out of commission will be a direct result of this new pneumatic tired wheel. It will bring a new speed and comfort in rail travel."

News Notes

Rees May and Stewart Newton were in Stirling and Raymond on Wednesday of this week.

Sugar City Motors have installed a Spark Plug Tester. It is surprising what this shows regarding the condition of plugs.

According to F. R. Taylor, Agricultural Superintendent of the Sugar Factory, beet seeding at the end of last week was about 4,500 acres, or about half of what it was the same date a year ago.

Mrs. Madge Orent, wife of Harry J. Orent of Del Bonita, passed away in a Calgary hospital Tuesday night where she had gone with her husband to seek medical attention. She was a devoted wife and mother and leaves her husband and seven children to mourn her loss. The funeral may be held in Cardston, but no announcement has been made as yet.

CROSS-BREDS VS. PURE BREDS IN PRODUCING MARKET HOGS

(Experimental Farms Note)

With the object in view of determining the comparative economy of pork production between pure-bred hogs of the Yorkshire, Tamworth, Berkshire and Duroc-Jersey breeds and the respective crosses of the same breeds, six tests have been conducted, over a period of five years, at the Dominion Experimental Station at Lacombe, Alberta. For this purpose the following hogs were used in the trials: 68 pure bred Yorkshires, 44 pure bred Berkshires, 28 pure-bred Tamworths, 20 pure bred Duroc Jerseys, 17 Yorkshire Tamworth crosses, 12 Yorkshire Duroc Jersey crosses, 11 Berkshire Duroc Jersey crosses, 9 Berkshire Tamworth crosses, and 9 Tamworth Berkshire crosses, making a total of 160 pure-breds and 58 cross breeds. The comparison of breeds as economic producers was studied at the same time, which accounted for there being only a comparatively small number of cross bred pigs used.

In selecting hogs for the experiment an endeavor was made to obtain hogs of fairly uniform size and at the same time obtain lots of as nearly the same blood lines as possible. There was some variation in the age of the respective lots, which was unavoidable.

Based on the five-year average, the results of this test show the cross bred pigs to make an average daily gain per head of 1.113 pounds as contrasted with 1.023 pounds on the part of the pure-breds, or an increase of over 11 per cent. in favor of cross breeding.

In "meal required to produce 100 pounds of gain" there is a marked difference in favor of the cross bred pigs, the average showing a saving of 34 pounds of meal on the cross bred lot over the pure bred for every 100 pounds of gain produced.

Coming to the cost per hundred pounds gain, here again the cross bred lots make the better showing, with an average for all lots of 55 cents per hundred pounds gain in favor of the cross bred lots.

While the cross bred pigs clearly excelled those of pure breeding it must be kept in mind that it takes pure breeds on both sides of the pedi-

STOCK FEEDING USES HIGH GRADE OF INTELLIGENCE

Demand is for more Finished Product That Can be Walked off the Farm

Regina, Sask., May 11—Writing the preface of "Profitable Stock Feeding" Howard R. Smith, livestock commissioner, Chicago Livestock Exchange, says, "If stock feeding is to be conducted with profit there must be put to work a higher order of intelligence. How can it be otherwise?"

Calling attention to this statement Harvey O. Powell, vice-president and general manager of the Dominion Agricultural Credit Company, Limited says, "We have farmer citizens on the prairies of a very high order and I am confident that part of this high intelligence will be directed towards producing more milk, more cream, more wool, more eggs and more of the finished product on the hoof that can be walked off the farm."

The Dominion Agricultural Credit Company, Limited, with head office in Regina, is conducting an intensive campaign in an effort to supply responsible farmers of Manitoba, Saskatchewan and Alberta with cattle and sheep on credit to form the foundation stock from which will be derived an income irrespective of the cash grain crops.

Health Service

OF THE
Canadian Medical Association

Edited by
GRANT FLEMING, M.D. ... ASSOCIATE SECRETARY

HEADACHES

There is a wide variety of reasons for headaches. They occur at all ages and are far more common among children than is generally suspected. The occurrence of headache means that there is something wrong somewhere in the body. There is an acute and very painful form of headache known as "migraine", which appears to run in families.

Eyestrain is probably the most common cause of the condition. It is not necessary for the person to do what is known as close work to suffer from eyestrain. As long as the use of the eyes causes abnormal strain, whether this be from near or distant work, or from poor lighting, headache is to be expected as a result.

Inflammation causes pain, and so it is that any inflammation in the head or in parts which are close to the head is often felt as headache. Inflammation is usually due to infection in the head; the common sites of infection are the sinuses and the teeth. Headache may therefore be associated with infected teeth or sinus disease.

As one symptom, headache occurs in very many diseases, particularly those in which there is high fever. When some important organ of the body is not functioning properly, one evidence of how the whole body may be upset is the occurrence of headaches. So it is that anaemia and nephritis give rise to headaches.

Increased pressure within the head causes pain. The pain may be due to increased blood pressure or to some growing tumour. In either case, there is headache.

There is a considerable difference

in the susceptibility of individuals to headaches. Some people seldom, if ever, have a headache, while others develop headaches from the slightest disturbances. Why this is so we do not know. These who are prone to headaches may suffer from them as a result of lack of fresh air, undue excitement, worry or fatigue.

Headaches are often associated with constipation. There are those who believe that such headaches are due to the absorption of toxic or poisonous material from the bowels, auto-intoxication. However, it is a common experience that headaches of this type are quickly relieved when the bowels move, which indicates that the headaches result from the pressure of the overloaded bowels rather than from the absorption of toxins or poisons.

Headaches should be accepted as a warning. If the headache is severe, if it persists or recurs, the case should be brought under medical care. The pain may be dulled by self-prescribed drugs, but proper treatment is required to find what is responsible and to remove or correct the cause, rather than the headache itself, which is only a symptom.

News Notes

Shirley Kinsey returned recently from California and is mechanic at the Sugar City Motors again now.

H. C. Perks and Dean McMullin have been busy for the past two weeks or so planting shrubs, lawns, etc., at the Sugar Co. Clubhouse. When these plantings are in bloom this will be a real beauty spot.

ELEVATOR AT RAYMOND.

GOODYEAR PRIZE CONTEST

**\$3,000.00
CASH**

HOW MANY SUPERTWIST CORDS

IN THE AVERAGE GOODYEAR TIRE?

- 1st prize — \$1,000.00 cash
- 2nd prize — \$500.00 cash
- 3rd prize — \$200.00 cash
- 4th prize — \$100.00 cash
- 5 prizes, each \$50.00 cash
- 95 prizes, each \$10.00 cash
- 104 prizes totalling \$3,000.00

Someone is going to walk home with that \$1,000.00 for just estimating the number of cords in the average Goodyear Tire. Why don't you take a few minutes to make an estimate? It won't cost you a cent and you have as good a chance as anyone else to be one of the winners.

Anyone from a household where a car is owned may enter except tire dealers, employees of rubber companies and the families of both. There is no entry fee, nothing to buy, no special requirement.

See the six Goodyear Tires of various sizes, types and ply-thicknesses on display here. Then estimate the number of cords in each, find a total, and divide by six to strike the average. Submit the number you estimate on a standard entry blank, obtainable from the undersigned.

Closing date June 5th, 1932. Address: "The Goodyear Supertwist Cord Contest," New Toronto, Toronto 14, Ontario.

Come in and see Supertwist Cords demonstrated and get a helpful booklet of contest directions.

Mother's Day programs will be given in the Sunday Schools this coming Sunday morning. It is dangerous indeed for vehicles to be on the road at night without reflectors or lights of some kind as a warning to motorists.

Good progress is being made on the residence of Milton Strong just south of the Catholic Church. Milton and his father are both working on it. It will be a bungalow home built of rock, Saturday night last week, Bishop O. and trimmed with brick, and will be very attractive when completed.

A car crashed into a team on the highway last week in the darkness, and while the drivers of the team and the car were both badly shaken up and the car damaged to quite an extent.

ent there was no one hurt seriously. It is dangerous indeed for vehicles to be on the road at night without reflectors or lights of some kind as a warning to motorists.

Miss Lucille Sherwood and Truman Holt were married in Lethbridge on Saturday night last week, Bishop O. W. Ursenbach performing the ceremony. The young couple will make their home here, the groom being associated with his father in the grocery business.

The teams of the district are extended to the young couple in their matrimonial journey.

News Notes

"DAYBREAK" with Ramon Navarro at the CAPITOL, SATURDAY.

The Mail is now carried by the train six times a week and by the Greyhound bus six times a week.

In the mornings of Monday, Wednesday and Friday it comes from Cardston and all points west on the train and gets in Raymond 10:20 a.m. On Tuesday, Thursday and Saturday mornings, the bus brings the mail from Cardston and west and arrives here at 8:55 a.m. Each afternoon the mail gets in from the east and north at 5:05, three nights a week by the bus and three by the train. These times should be kept in mind by local people.

209 more Doukhobors were arrested at Thrums, near Nelson on Sunday when found by police parading in the nude contrary to instructions and warnings of the Attorney-General's department. There were 90 men, 52 women, and 67 children under 14 gathered up in Sunday's arrests.

A fatal accident occurred on the gravelled highway near Macleod on Sunday morning last when the car ran off the grade, bumped into a telephone pole and killed Miss Irene Desmond of Lethbridge, and shook up the other three very badly. The car was a total wreck. According to reports the driver wanted to light a cigarette, and asked the girl by him to drive, and she had the steering wheel when the accident occurred. There were four in a Star Coupe. The funeral was held Wednesday.

WITHOUT exception here's the greatest value Firestone ever offered in a low-priced tire. Think of it—a big, husky, full-valued tire that has all the features of a tire costing much more—including a Gum-Dipped cord body. And, yet you can buy it at bargain sale prices and with a lifetime guarantee!

Never before have you had the opportunity of getting so much tire value for your money. Think of the extra strength, extra safety and extra mileage that no other tire in the low-price class can give you. And remember that Sentinel tires are made and guaranteed by Firestone. Drive in to your nearest Firestone Dealer and let him put these wonderful long-wearing tires on your car today.
